## Looking for a distinct look?

Classic Horizon designer shingles offer you something different. With durable one-piece construction, they'll hold their own against the elements. But because of a patented design feature, they'll do something even better: replicate the appearance of two-layer dimensional shingles to an amazing degree. That means while you get a comfortable price range — your roof gets a high-end look.

# classic horizon is designed to stand out

## sophisticated looks

We use a patented process of applying distinct shadow lines and overlays to create depth and texture. It works so well that when Classic Horizon is on your roof, it's hard to distinguish it from a more expensive dimensional shingle.

## superb protection

With durable Shangle® construction, you get the assurance of great integrity. Multiple layers of asphalt and roofing materials provide excellent wind-resistance and protection from leaks.
